

Extension of WISI Info

The sex worker interim project, WISI Info (Information for Workers in the Sex Industry), has been granted a further extension until July 2009 to allow additional time to develop a long-term sex worker sexual health education and prevention program. Queensland Health now anticipates that this new service will be operational by the end of 2009.

In the meantime, WISI Info will continue to provide telephone and email information and referral to sex workers throughout Queensland. Sex workers with clinical concerns or enquiries should continue to contact their local sexual health clinic or GP, as WISI Info is an information and referral service only.

The contact details for WISI Info are:
