---

**Special thanks to those sex workers we interviewed for this Annual Report. The names and personal details of the sex workers have been changed to protect their identities.**

## "Cassie" aged 53 years

"What some people don't understand about being a sex worker is that it is not all about sex. I have clients who just want to be cuddled and want to (for the time being) just feel that they are loved. Some of my clients have wives who they love but their wives can't or don't want to spend the time with their husbands just chatting and being held. I see myself as an actor with a wide range of skills, I ask what the client wants and then I provide what it is they want. I don't ridicule them, I don't make fun of them and I don't say they are perverted or dirty."
