**Handbook for  
Approved Managers  
of Licensed Brothels**

# ABOUT THIS HANDBOOK

This handbook has been developed by the Prostitution Licensing Authority (PLA) to assist approved managers in the conduct of their duties whilst employed at licensed brothels in Queensland.

The PLA recognises the various tasks and responsibilities given to approved managers at licensed brothels. It is for this reason that the PLA has identified that practical and consistent advice is provided to approved managers for use in the execution of their duties.

The PLA appreciates that some approved managers have had limited exposure to the licensed brothel industry whilst others may have gained quite extensive experience. As such, the handbook has been developed to cater for the diverse experience and backgrounds of approved managers.

The handbook provides general advice on issues relating to licensed brothel operations as well as providing practical advice on how particular tasks should be undertaken.

It is not intended to alter, or in any way, to modify the obligations imposed on approved managers by the *Prostitution Act 1999*.
